Mr Fenton. Sorry for the delay in responding. I would like to meet with you and Ms. Thomas next week. I am traveling Monday and Tuesday and would propose next Wednesday, May 22. I believe Michael Emerson in my office is in contact with Deb and will arrange the meeting. I look forward to seeing both of you.

Dear Mr. Sussman,

You may remember meeting with my colleague, Deb Thomas and I in late 2010 when we visited your offices in D.C. Thank you again for allowing us to bring our issues to your attention. As you may remember, both of us work and live in Wyoming. Deb lives in Clark, and I in Pavillion.

As you know, the Investigation of Groundwater Contamination near Pavillion, Wyoming is on-going. The public comment period has been extended twice, and will be open until September 30, 2013. While we believe this will provide an opportunity to comment for all interested parties, we fear it also puts those of us living in the contaminated area at greater risk.

We understand that there are many stakeholders in the area of investigation, and many differences of opinion. We suspect you hear most of those opinions and believe it is important that you do. We would like to make sure you also hear ours. Our voice is unique because we live and work in the affected area. For the same reason, we can provide you with information that only we have.

As we explained during the 2010 meeting, we greatly appreciate the efforts that Jim Martin and the EPA region 8 staff have made to help address the on-going issues in our community. Our contacts at Region 8 continue to be attentive and involved. Mr. Martin and his staff have given many of us a renewed faith in our government. We were very sorry to see Mr. Martin leave Region 8, and we wish him the best.

Unfortunately, it is difficult for us to meet with you because Washington D.C. is a long distance from Wyoming and is expensive to visit. Fortunately, Deb and I will be back in the Capitol from the 21st through the 24th of May. Our hope is that we can meet with you while we're in the city. We will greatly appreciate any time you can make for us.

Please contact Deb Thomas at [307-645-3236](tel:307-645-3236) to schedule a time to meet.

Respectfully,

John Fenton

which may be a computer program. This attached computer program could
contain a computer virus which could cause harm to EPA's computers,
network, and data. The attachment has been deleted.

This was done to limit the distribution of computer viruses introduced
into the EPA network. EPA is deleting all computer program attachments
sent from the Internet into the agency via Email.

If the message sender is known and the attachment was legitimate, you
should contact the sender and request that they rename the file name
extension and resend the Email with the renamed attachment. After
receiving the revised Email, containing the renamed attachment, you can
rename the file extension to its correct name.

For further information, please contact the EPA Call Center at
(866) 411-4EPA (4372). The TDD number is (866) 489-4900.
